

Thank you for choosing Chilewich.

Heddle Indoor/Outdoor Woven Floor Mat

Designed and made in the USA, your new Chilewich floor mat is extraordinarily durable and will maintain its like-new look for years to come. The information below will help to keep your mat in peak condition.

PLACEMENT Your indoor/outdoor woven floor mat is best suited to dry surfaces.

To prevent your mat from slipping on smooth surfaces, use a rug pad or carpet tape.

Your mat may be used on floors with radiant heating, provided that the floor temperature does not exceed 85°F/30°C.

Avoid placing objects made of rubber (including rubber castors) on your mat, as discoloration may occur.

Your mat is made with advanced technology to prevent fading, but, like all textiles, it may fade when placed in direct sunlight for protracted periods.

CARE Whether your mat lives indoors or outdoors, make sure to occasionally air it out by turning it over.

When moving or storing, roll up your mat and tie loosely.

In case of wrinkling, do not iron your mat. Instead, steam it lightly using a handheld steamer.

CLEANING Do not machine wash your mat.

To spot clean, use a brushless vacuum to remove loose dirt. Blot spills quickly with a damp, lint-free cloth. More persistent stains can be cleaned with spot cleaner and wiped with a cloth. Once spot is cleaned, lift and clean the floor. Allow both mat and floor to dry completely before replacing the mat.

To deep clean, hand rinse mat with water and light detergent, allowing it to air dry completely before placing it back on the floor.
